December 12, 2019

Parents/Guardians and White Oak Middle School Students,

I am writing this letter for informative purposes in dealing with the vaping crisis with teens all across America, as well as - right here in White Oak.

This epidemic is affecting our children at an alarming rate, with rates approaching 1-in-3 students due to the addictive nature of these products.

WOMS has procedures in place for students who violate the Student Code of Conduct involving the possession of tobacco/electronic cigarettes or the components of such. Not only are these products against the Student Code of Conduct, but they are also illegal to possess by a student at school or school-related activity on or off school property.

Beginning January 7, 2019, the White Oak Police Department will be informed of any tobacco/e-cigarette related incident and will issue an appropriate citation. This will be over and above any consequences the student will face from the school.

Please join in helping us beat the issues that vaping brings upon our children by educating them of the dangers and holding them accountable for their actions.

If you have any questions, please contact us so that we may be of further assistance.

Sincerely,

Michael Higginbotham
Assistant Principal
White Oak Middle School
